BETTERFLY

Insurance that keeps you healthy — and rewards you for it.

Betterfly is an insurance benefit that works from day one — giving employees real protection, real clarity about their health, and real rewards for staying engaged.

We make it easy for companies to invest in their people and rewarding for people to invest in themselves.

Here's how it works

Protection comes first. Understanding follows. Engagement grows from there.

Get Protected

From day one, employees receive real financial protection for the people who matter most — with guaranteed-issue group term life and no medical underwriting.

Get Clear

Next, employees gain real visibility into their health and a starting point to improve it — through a 68-biomarker health snapshot and physician consultation, included at no extra cost.

Get Engaged

From there, employees stay engaged through personalized missions and rewards that turn healthy actions into tangible benefits — keeping participation

For Employees

- Insurance they actually use
- Real clarity about their health
- Ongoing guidance and motivation
- Healthy habits that stick

For Companies

- A single, cohesive benefit
- Workforce health visibility
- Measurable year-round engagement
- Measurable ROI on benefit spend

Launching in Florida Q2 2026 - Trusted by 2,000+ companies across Latin America and Europe

How pricing works:

Platform fee ($20/$30 PEPM) covers: prevention (lab panel, consultation, biological age) + engagement (app, Betterflies, coaching, challenges, rewards) + employer portal.
Insurance products are census-rated and priced separately based on group demographics. Companies can select any combination.
Coverage ranges, benefit caps, and GI amounts available on request.
HIPAA-compliant. Individual employee health data is never shared with employers. All workforce reporting is anonymized and aggregated.
