BETTERFLY

The health benefits platform that rewards healthy living

Betterfly is an employee health benefits platform that integrates the worlds of insurance, health & wellbeing, and rewards into one AI-powered ecosystem.

We make it easy for companies and their teams to access and manage comprehensive protection and health benefits — from purchasing insurance to engaging in daily wellness — all through a unified, digital experience.

Trusted by 2,000+ companies

sodexo · Rappi · KraftHeinz · BHP · Nestlé · Krispy Kreme Doughnuts

Healthcare spends 97% on reactive "sick care" and only 3% on prevention.

We asked: what if we flipped this?

We're transforming insurance from reactive protection into proactive prevention.
Our all-in-one digital platform:

Rewards healthy behaviors
through gamification and purpose

Incentivizes daily engagement
with tangible benefits and social impact

Aligns members, employers, brokers, insurers
around shared health outcomes and sustainable value creation

The result: Better health, lower costs, measurable impact

For Employees

- Rewards for preventive behavior and daily healthy actions
- Comprehensive protection and health benefits in one unified platform
- Financial, health, and social incentives tied to better health outcomes

For Employers

- Reduced costs through preventive health engagement
- Stronger, more resilient, and productive teams
- Measurable impact and real-time insights on health benefits ROI
- Simplified insurance management and administration

How it works:
The healthier you get, the more you unlock

As members progress through tiers, they better rewards and coverage

- Insurance coverage that grows as you get healthier
- Unlock social impact donations based on your activity
- Rewards for preventive care and healthy habits
- Access to exclusive insurance products and health services at steep discounts

Turning Data into a Health & Insurance Flywheel

Our data flywheel connects healthy behaviors with financial incentives to power better outcomes and healthier, happier members.

By linking Behavioral Data (Prevention) with Insurance and Healthcare Data (Protection) we create a new model for the industry — one where living healthier produces tangible financial benefit.

Outcome: Improved Health. Reduced Claims. Stronger ROI.

An AI-Powered Ecosystem: Key Platform Features

Personalized wellbeing journeys
with tangible benefits and social impact

Incentive engine
that rewards activity, healthy habits, and social good

Integrated insurance benefits
