Betterfly

Employee health benefits, reimagined

With Betterfly®, make the shift from reactive to proactive employee health and transform your biggest expense into your biggest competitive advantage.

The Old Way

- **Reactive, disease-centered** plans wait for problems, then pay to patch symptoms.
- **One-size-fits-all** benefits that disengage 70% of the workforce.
- Fragmented vendors, **rising premiums**, and HR-admin overload.

A Better Way

- **Proactive, health-first** OS predicts risk, prevents disease, and rewards healthy action.
- **Personalized** allowances and AI guidance so every worker builds the plan that fits their life.
- One contract, premiums shrink as the workforce gets healthier, and hassle-free admin that eliminates HR headaches

The best part? Betterfly® meets you where you are.

No Health Insurance?
Comprehensive coverage, diagnostics, and wellbeing in one solution.

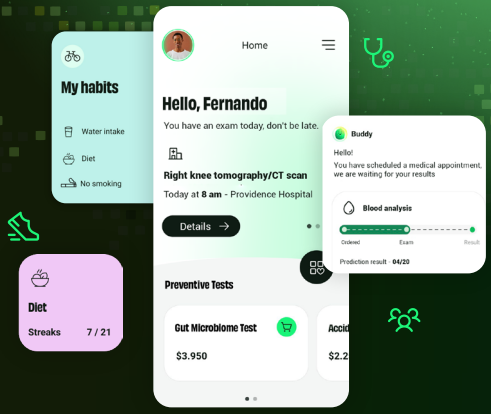
Have Existing Insurance?
Enhance current insurance with preventive tools and personalized health optimization.

Want Flexible Benefits?
Employee-driven, tax-free benefit selection through our curated marketplace.

Ready for the Future of Health?
Root-cause diagnostics, AI insights, and functional medicine for optimal health outcomes.

The future of employee health benefits is here

Betterfly® integrates traditional insurance, advanced diagnostics, functional medicine, and personalized wellbeing into one intelligent platform that makes your workforce healthier while reducing costs. Using behavioral science and gamification, we turn everyday wellness activities into engaging habits through personalized health education and meaningful rewards.



Here's how it works

STEP 1 Protect

Coverage That Rewards Health

Traditional group health coverage with a twist; premiums decrease as employees get healthier

STEP 2 Prevent

Catch Issues Early

Advanced diagnostics and lab tests, cutting-edge tools, and health education catch issues before they become chronic conditions

STEP 3 Empower

Employees Take Health Ownership

On-demand marketplace with access to health optimization tools, wellness programs, and AI-powered coaching

The Betterfly® Health OS: One Platform for Complete Employee Health

Integration Ecosystem

Connects All Your Health Data Sources

Unifies company systems with employee health data to eliminate silos and create complete health visibility.

Flexible Health Allowances & Marketplace

Simplifies Tax-Free Employee Health Investment

Employers set budgets while employees spend pre-tax dollars on personal health goals through exclusive marketplace pricing.

AI Health Coach

Delivers Personalized Health Insights to Every Employee

Converts complex health data into actionable employee roadmaps while driving engagement through gamification.

Admin Dashboard

Maximum Health Insights with Zero Administrative Burden

Automated onboarding and analytics deliver workforce health visibility while eliminating HR administrative tasks.

See the proof

What worked for one became the model for many.
